Express Mail	\$ 20.00
WEDDING CEREMONIES	
Wedding Ceremony Performed by County Clerk	\$ 110.00

GENERAL RECORDING PROCEDURES

- Fees: The recording fees listed are for the first page. The following fees are additional charges:
 - a) Each additional page of the same document is \$5.00.
 - b) Each additional title of a document is \$5.00.
 - c) Each previous recording reference after the first is \$5.00.
- Re-Recording Documents: Per ORS 205.244, re-recordings will be accepted on originals or unaltered certified copies with a cover sheet. A document presented for re-recording must contain the following certificate:
“RERECORDED AT THE REQUEST OF _____ TO CORRECT_____. PREVIOUSLY RECORDED IN BOOK _____ AND PAGE____, OR AS FEE NUMBER_____.”
- First Page Requirements: ORS 205.234 requires the following on the first page of instruments to be recorded.
 - a) The name(s) of the transaction(s) per ORS 205.236. a document must be clearly labeled in sufficient detail to enable the clerk to record the instrument in the appropriate record;
 - b) The names of the parties per ORS 205.125 & 205.160; all documents submitted for recording, including cover sheets or multiple title documents, must contain the names of all parties (direct and indirect) on the first page of the document;
 - c) The person (and address if mailed) to whom the instrument will be returned per ORS 205.180;
 - d) The true and actual consideration paid for a transfer of title to any real estate per ORS 93.030;
 - e) The address to send tax statements per ORS 93.260;
 - f) The amount of any monetary obligation imposed by the order or warrant, and the name of all persons against whom the obligation is imposed on all documents presented for recording in the County Clerk Lien Record; and the full or partial satisfaction, if any, of any lien claim created by the order or warrant per ORS 205.125;
 - g) The name and address of the assignee mortgagee or assignee trust deed beneficiary for mortgage/trust deed assignments.

E-Recording: If a document is allowed or required by law to be recorded, it may be presented for recording electronically if the presenter follows adopted procedures.

- Cover Sheets: ORS 205.234 allows a cover sheet to be added to a document that does not contain the required information on the first page. A cover sheet cannot be used to change a document’s title. A cover sheet only adds required information; it cannot be used to record a document that there is no authority to record. The person presenting the instrument for recording shall prepare the cover sheet. The cover sheet may be attached to the instrument and shall be recorded as a part of the instrument, but the indexing will be taken from the document itself rather than from the cover sheet. Any errors in the cover sheet shall not affect the transaction(s) contained in the instrument itself. The cover sheet need not be separately signed or acknowledged.

- Withdrawing Documents: The Klamath County Clerk will not withdraw a recorded document, except for a clerical error by the Clerk's staff.
- Margins: Every document presented for recording, with the exceptions noted below, shall have a top margin on the first page of three inches (3") available for the recording information. Providing less space may result in rejection of the document or the requirement that a cover sheet be added. The preparer may use the left half of the top margin to list administrative content per statute (tax information, party names, return-to information). All other margins on the document shall be one inch (1") to allow for a buffer space to prevent lost document text during the imaging process. Lack of proper margins will result in a nonstandard fee being charged. Recording information will be placed in the upper right on the first page. Documents exempt from the preceding format requirements include:
 1. Plats and surveys;
 2. Documents that were signed prior to January 1, 2002;
 3. Military separation papers;
 4. Documents executed outside the United States;
 5. Certified copies of documents, including death certificates and court judgments;
 6. Any document where one of the original parties is deceased or otherwise incapacitated;
 7. Applications to exempt manufactured structures;
 8. Tax warrants.
- Nonstandard Fee: ORS 205.327 requires that all non-standard instruments be charged a non-standard fee of \$20.00 in addition to all other applicable fees. The nonstandard fee will also apply to any document not on white paper.
- Parentheses in Document Title: For recording purposes, () around text in an instrument title will have no effect on the instrument title. The text in the () will also be indexed and an additional transaction fee charged.
- Instrument Titles: Each instrument shall have at least one instrument title. Each additional transaction will be charged a multiple transaction fee.
- Legibility: ORS 205.135 requires that whenever the text of a document presented for recording may be made out but is not sufficiently legible to reproduce a readable photographic record, the county clerk shall require the person presenting it for recording to substitute a legible original document or prepare a true copy by handwriting or typewriting and attach the same to the original as a part of the document for making the permanent photographic record.

- Notaries: ORS 205.130 requires notarization. Party and notary signatures must be original; photocopies cannot be recorded. An Oregon notary seal that is blurred or faint is not acceptable for recording. The notary may write the information outside the perimeter of the seal or a new seal can be affixed to correct. Document may be rejected if the notarization is not properly completed. If a “loose” notarial certificate is used, the connection to the document must be shown. This can be done in a number of ways, including using language such as “This certificate is attached to a partnership agreement between John Smith and Mary Doe, signed July 14, 1986” or “Page 3 of 4 of Warranty Deed between Ron Jones and Andy Smith dated July 1, 1970.” A second imprint may overlap the document and the certificate showing they are connected. (When doing an attachment certificate a seal imprint must be completely on the certificate. A second imprint may overlap the document and certificate as a protection service.) Execution and acknowledgement of deeds ORS 93.410.
- Certified Copies: The certification must be original on any certified document presented for recording.
- Language: Documents submitted for recording shall be in the English language. If a notary section is in a language other than English, an English translation must accompany the document.
- Highlighter: Documents marked with a highlighter will be recorded; however, it should be understood the highlighted portions would not be noticeable on the scanned or microfilmed permanent copy in the Clerk’s Office.
- Discharge, Exemption, or Termination: These terms on an instrument title will be interpreted as releases/satisfactions.
- Federal Documents: The recording fee for documents presented by any agency of the Federal government is \$5 per page. Because the Federal government cannot be taxed by the county or state, the actual indexing fee is the only fee charged. If the document is presented by a title company or an individual, regular recording fees apply.
- Death Certificates: A document that records a death filed in conjunction with owning or having a claim or interest in land may not be recorded if the document originated in Oregon and includes medical information related to the cause of death if the death occurred after January 1, 2014. For those, a short form certificate is required.

INSTRUMENT TITLE	RECORDING REFERENCE	INDEX CODE	FEE for 1st PG
Abandonment Notice	87.045	D	\$82
Abatement Expenditures (court order)	105.440	CLR	\$77

Re-recording of Recorded Document	According to case law, a document may be re-recorded if the vesting does not change. The legal may be corrected if it does not change the size of the property, or a grantor may also re-record a document to correct the legal if the size of the property in the corrected legal is larger than before. If the vesting needs corrected, the property should be re-conveyed back and a new deed prepared and recorded. Vesting cannot be changed on a re-record. Names may be corrected on a re-record, such as adding a junior or correcting a middle initial or spelling of a name.
