

Klamath County Public Health

COVID-19 chronology

June 2020

June 30, 2020

Klamath County announced four new cases, bringing the total to 122. Three more lives were lost, raising Oregon's death toll to 207. The Oregon Health Authority reported 181 new confirmed and presumptive cases, bringing the state total to 8,656.

The new cases were in the following counties: Clackamas (19), Coos (1), Deschutes (10), Jackson (5), Jefferson (12), Josephine (2), Klamath (3), Lake (2), Lane (7), Lincoln (3), Linn (4), Malheur (7), Marion (25), Multnomah (38), Polk (2), Umatilla (9), Union (10), Wasco (1), Washington (18), and Yamhill (3).

Oregon's 205th death was a 74-year-old man in Marion County who tested positive June 18 and died on June 29, at his residence. He had underlying medical conditions.

Oregon's 206th death was a 93-year-old man in Marion County who tested positive June 19 and died June 29, at Salem Hospital. He had underlying medical conditions.

Oregon's 207th death was a 66-year-old woman in Marion County who tested positive June 12 and died June 27, at Salem Hospital. She had underlying medical conditions.

At 10 a.m. Central European Summer Time the World Health Organization reported there were 2,537,636 cases in the United States, with 126,203 deaths. Worldwide there were 10,185,374 cases, with 503,862 deaths.

June 29, 2020

Oregon's death toll was 204, after two new deaths. Oregon Health Authority reported 146 new confirmed and presumptive cases, bringing the state total to 8,485.

The new cases were in the following counties: Clackamas (18), Deschutes (2), Douglas (2), Jackson (3), Jefferson (3), Josephine (1), Klamath (5), Lake (2), Lane (6), Malheur (5), Marion (14), Multnomah (29), Tillamook (2), Umatilla (15), Union (5), Wasco (6), Washington (27), and Yamhill (1).

Oregon's 203rd death was an 84-year-old woman in Marion County who tested positive June 18 and died June 27. She had underlying medical conditions.

Oregon's 204th death was a 72-year-old man in Marion County who tested positive June 17 and died June 27. He had underlying medical conditions.

Note: Epidemiologists began using a new method for reporting daily cases. The method assigned a date to each case when the case is first known to the state or to local health department as confirmed or presumptive. This was said to be a better representation of the number of cases reported on any given day. Previously, the method was to subtract a day's case count from the previous day's count.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,496,628 cases in the United States, with 125,318 deaths. Worldwide there were 10,021,401 cases, with 499,913 deaths.

June 28, 2020

Klamath County announced seven new cases, bringing the total to 118. Oregon Health Authority reported 247 new confirmed and presumptive cases, bringing the state total to 8,341.

The new cases were in the following counties: Clackamas (18), Clatsop (1), Columbia (1), Deschutes (8), Jackson (9), Jefferson (3), Josephine (1), Lane (3), Lincoln (3), Malheur (11), Marion (43), Morrow (8), Multnomah (52), Polk (3), Umatilla (48), Union (2), Wasco (3), Washington (29), Yamhill (1).

At 10 a.m. Central European Summer Time, the World Health Organization reported there were 2,452,048 cases in the United States, with 124,811 deaths. Worldwide there were 9,843,073 cases, with 495,760 deaths

June 27, 2020

Another death brought Oregon's total to 202. Oregon Health Authority reported 277 new confirmed and presumptive cases, bringing the state total to 8,094.

The new cases were in the following counties: Benton (2), Clackamas (16), Columbia (1), Coos (1), Crook (1), Deschutes (3), Jefferson (3), Josephine (2), Lake (1), Lane (14), Lincoln (2), Linn (4), Malheur (12), Marion (32), Morrow (5), Multnomah (59), Polk (2), Umatilla (56), Union (11), Wasco (2), Washington (44), Yamhill (4).

Oregon's 202nd death was an 84-year-old man in Multnomah County who became symptomatic June 21, after close contact with a confirmed case, and died on June 22. He had underlying medical conditions.

Correction: On Friday, OHA erroneously reported that Oregon's 202nd death was a woman who tested positive June 22. The total number of COVID-19 deaths in Oregon was 202.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,407,590 cases in the United States, with 124,161 deaths. Worldwide there were 9,653,048 cases, with 491,128 deaths.

June 26, 2020

Five more deaths brought Oregon's toll to 202. Oregon Health Authority reported 250 new confirmed and presumptive cases, bringing the state total to 7,818.

The new cases were in the following counties: Benton (4), Clackamas (17), Columbia (1), Deschutes (4), Douglas (4), Jackson (5), Jefferson (6), Josephine (2), Lake (3), Lane (10), Lincoln (4), Linn (4), Malheur (13), Marion (18), Morrow (12), Multnomah (61), Umatilla (22), Union (12), Wasco (3), Washington (39), and Yamhill (6).

Oregon's 198th death was a 96-year-old woman in Marion County who tested positive June 18 and died June 25, at her residence. She had underlying conditions.

Oregon's 199th death was a 90-year-old man in Marion County who tested positive June 19 and died June 25, at his residence. He had underlying conditions.

Oregon's 200th death was a 79-year-old woman in Marion County who tested positive June 18 and died June 24, at her residence. She had underlying conditions.

Oregon's 201st death was a 90-year-old woman in Union County who tested positive June 13 and died June 25, at Grande Ronde Hospital. She had underlying conditions.

Oregon's 202nd death was a 74-year-old woman in Morrow County who tested positive June 22.

In order to clarify face covering use requirements, OHA updated its guidance document for residents of Clackamas, Hood River, Lincoln, Marion, Multnomah, Polk and Washington counties.

In these counties, face covering use is required in all businesses and for the general public when visiting these businesses and for the general public when visiting indoor spaces open to the public.

The Governor also released general guidance for the use of face coverings in counties beyond the specified counties.

In the guidelines, indoor spaces are defined as spaces, whether publicly owned or privately owned, "where the public has access by right or invitation, express or implied, whether by payment of money or not." In addition to the public areas of the businesses those spaces include building lobbies or common spaces, elevators, and buildings or meeting rooms outside of private homes where people gather for social, civic, cultural or religious purposes.

At 10 a.m. Central European Summer Time, the World Health Organization reported the United States had 2,367,064 cases, with 121,645 deaths. Worldwide there were 9,473,214 cases, with 484,249 deaths.

June 25, 2020

Klamath County announced seven new cases, bringing the total to 111. Two deaths raised the Oregon's death toll to 197. Oregon Health Authority reported 124 new confirmed and presumptive cases, bringing the state total to 7,568.

The new cases were in the following counties: Benton (6), Clackamas (8), Clatsop (1), Coos (2), Deschutes (2), Klamath (13), Lake (3), Lane (5), Linn (2), Malheur (2), Marion (4), Morrow (1), Multnomah (29), Polk (2), Umatilla (8), Union (10), Wasco (1), Washington (24), and Yamhill (1).

Oregon's 196th death was an 83-year-old woman in Marion County who tested positive June 18 and died June 24, in her residence. She had underlying conditions.

Oregon's 197th death was an 83-year-old man in Marion County who tested positive June 18 and died June 23, in his residence. He had underlying conditions.

Notes: One case previously reported in Jackson County was determined not to be a case. The county case count was appropriately adjusted.

OHA released updated guidance for face covering use for Oregonians statewide. The document outlines many required and recommended settings for use.

Of note is the strong recommendation that "individuals, including children between 2 and 12 years of age, wear a mask, face shield, or face covering at all times in all indoor public places, particularly in places where it is likely that physical distancing of at least six (6) feet from other individuals outside their household unit cannot be maintained at all times, and vulnerable people must go."

At 10 a.m. Central European Summer Time, the World Health Organization reported the United States had 2,329,463 cases, with 120,955 deaths. Worldwide there were 9,296,202 cases, with 479,133 deaths.

June 24, 2020

Klamath County announced seven new cases, bringing the total to 104. Three deaths brought Oregon's death toll to 195. Oregon Health Authority reported 171 new confirmed and presumptive cases, bringing the state total to 7,444.

The new cases were in the following counties: Benton (2), Clackamas (8), Clatsop (1), Deschutes (4), Jackson (2), Jefferson (3), Klamath (3), Lincoln (9), Linn (1), Malheur (5), Marion (13), Multnomah (45), Polk (1), Umatilla (35), Union (5), Wasco (2), Washington (31), Yamhill (1).

Oregon's 193rd death was a 63-year-old man in Lincoln County who tested positive June 11 and died June 23, at Samaritan Pacific Community Hospital. He did not have underlying medical conditions.

Oregon's 194th death was a 78-year-old man in Clackamas County who tested positive June 16 and died June 22. He had underlying medical conditions.

Oregon's 195th death was an 87-year-old woman in Marion County who tested positive June 17 and died June 23, at Legacy Meridian Park Medical Center. She had underlying conditions.

Note: One case previously reported in Hood River County was determined not to be a case; the county case count has been appropriately adjusted.

At 10 a.m. Central European Summer Time, the World Health Organization reported there were 2,295,272 cases in the United States, with 120,171 deaths. Worldwide there were 9,129,146 cases, with 473,797 deaths.

June 23, 2020

Klamath County announced three new cases, bringing the count to 97. Oregon Health Authority reported 191 new confirmed and presumptive cases, bringing the state total to 7,274.

The new cases were in the following counties: Clackamas (25), Coos (1), Deschutes (2), Hood River (1), Jackson (1), Jefferson (2), Klamath (7), Lane (1), Malheur (2), Marion (17), Morrow (3), Multnomah (44), Polk (1), Tillamook (1), Umatilla (19), Union (19), Wasco (4), and Washington (42).

New information was available about Oregon's 191st death, which was originally reported Monday, June 22. He was a 68-year-old man in Lincoln County who died June 16 at his residence. He had underlying medical conditions.

Notes: One case previously reported in Benton County was determined not to be a case; the county case count has been appropriately adjusted.

An outbreak of 37 cases was reported at Lamb Weston in Umatilla County. The case counts included all persons linked to the outbreak, which may include household members and other close contacts.

The investigation started June 16, but the initial case count was below the threshold for public disclosure. OHA was publicly reporting COVID-19 outbreaks of more than 20 cases in workplaces with more than 30 employees in its daily news release Monday through Friday.

Outbreaks of more than five cases in workplaces with 30 or more employees were reported in its weekly report, published on Wednesdays.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,268,753 cases in the United States, with 119,761 deaths. Worldwide there were 8,993,659 cases, with 469,587 deaths.

June 22, 2020

Klamath County announced six new cases, bringing the total to 94. Two deaths brought Oregon's toll to 192. Oregon Health Authority reported 146 new confirmed and presumptive cases, bringing the state total to 7,083. The new cases were in the following counties: Benton (2), Clackamas (15), Deschutes (4), Douglas (1), Hood River (1), Jackson (1), Jefferson (1), Lane (4), Lincoln (6), Marion (47), Morrow (1), Multnomah (17), Umatilla (11), Union (5), Wasco (1), Washington (27), and Yamhill (2).

Oregon's 191st death was a 68-year-old man in Lincoln County who died June 16 at his residence and tested positive June 17. He did not have underlying medical conditions.

Oregon's 192nd death was a 90-year-old woman in Marion County who tested positive June 18.

At 10 a.m. Central European Summer Time, the World Health Organization reported there were 2,241,178 cases in the United States, with 119,453 deaths. Worldwide there were 8,860,331 cases, with 465,740 deaths.

June 21, 2020

Another death brought Oregon's toll to 190. Oregon Health Authority reported 190 new confirmed and presumptive cases, bringing the state total to 6,937. The new cases were in the following counties: Clackamas (12), Deschutes (1), Jackson (3), Klamath (4), Lane (7), Lincoln (2), Linn (1), Malheur (2), Marion (7), Morrow (3), Multnomah (84), Polk (1), Umatilla (34), Union (3), Wallowa (1), Wasco (1), Washington (22), Yamhill (2).

Oregon's 190th death was a 93-year-old woman in Clackamas County who tested positive June 6 and died June 20 at her residence. She had underlying medical conditions.

At 10 a.m. Central European Summer Time, the World Health Organization reported there were 2,208,829 cases in the United States, with 118,895 deaths. Worldwide there were 8,708,008 cases, with 461,715 deaths.

June 20, 2020

Klamath County announced three new cases, bringing the count to 88. One death raised Oregon's toll to 189. Oregon Health Authority reported 178 new confirmed and presumptive cases, bringing the state total to 6,750.

The new cases were in the following counties: Benton (2), Clackamas (19), Coos (3), Douglas (1), Jackson (2), Jefferson (1), Klamath (4), Lane (2), Lincoln (23), Linn (1), Malheur (6), Marion (30), Morrow (1), Multnomah (34), Umatilla (4), Union (2), Wallowa (2), Wasco (4), and Washington (37).

Oregon's 189th death was a 53-year-old man in Morrow County who tested positive June 12 and died June 18, at his residence. He had underlying medical conditions.

Note: Two cases previously reported in Polk County were determined not to be cases; the county case count was adjusted to reflect this.

At 10 a.m. Central European Time, the World Health Organization reported there were 2,172,212 cases in the United States, with 118,205 deaths. Worldwide there were 8,525,042 cases, with 456,973 deaths.

June 19, 2020

Klamath County announced six new cases, bringing the count to 85. Another death raised Oregon's toll to 188. Oregon Health Authority reported 206 new confirmed and presumptive cases, bringing the state total to 6,572.

The new cases were in the following counties: Clackamas (23), Coos (1), Deschutes (3), Douglas (3), Hood River (2), Jefferson (4), Klamath (12), Lane (3), Lincoln (31), Linn (1), Malheur (1), Marion (20), Morrow (5), Multnomah (49), Umatilla (24), Union (6), Wallowa (1), Washington (17).

Oregon's 188th death was an 84-year-old woman in Marion County who tested positive June 3 and died June 10, at her residence. She had underlying medical conditions.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,149,166 cases in the United States, with 117,472 deaths. Worldwide there were 8,385,440 cases, with 450,686 deaths.

June 18, 2020

Klamath County announced 14 new cases, bringing the count to 79. Four deaths brought Oregon's toll to 187. Oregon Health Authority reported 148 new confirmed and presumptive cases, bringing the state total to 6,366. The new cases were in the following counties: Clackamas (12), Columbia (4), Hood River (3), Jefferson (4), Klamath (4), Lincoln (4), Linn (1), Malheur (4), Marion (26), Morrow (4), Multnomah (33), Polk (3), Umatilla (13), Union (5), Washington (25), Yamhill (3).

Oregon's 184th death was an 82-year-old woman in Marion County, who tested positive June 4 and died June 14. She had underlying medical conditions.

Oregon's 185th death was a 78-year-old man in Marion County who tested positive June 11 and died June 15 at his residence. He had underlying medical conditions.

Oregon's 186th death was an 89-year-old man in Clackamas County who tested positive June 6 and died June 16. He had underlying medical conditions.

Oregon's 187th death was an 87-year-old man in Clackamas County who became symptomatic May 13, after close contact with a confirmed case, and died May 23. He had underlying medical conditions.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,126,027 cases in the United States, with 116,702 deaths. Worldwide there were 8,242,999 cases, with 445,535 deaths.

June 17, 2020

Klamath County announced four new cases, bringing the count to 65. Oregon's death toll was 183, after another death. Oregon Health Authority reported 122 new confirmed and presumptive cases, bringing the state total to 6,218.

The new cases were in the following counties: Benton (3), Clackamas (17), Deschutes (2), Jackson (2), Josephine (2), Klamath (3), Lake (1), Lincoln (3), Marion (17), Morrow (1), Multnomah (34), Polk (1), Umatilla (12), Union (2), Washington (22).

Oregon's 183rd death was a 95-year-old woman in Clackamas County, who tested positive June 4 and died June 11. She had underlying medical conditions.

Notes: One case previously reported in Linn County was determined not to be a case; the county case count has been adjusted appropriately. One case previously reported in Hood River County was determined not to be a case; the county case count has been adjusted appropriately.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,098,106 cases in the United States, with 115,980 deaths. Worldwide there were 8,061,550 cases, with 440,290 deaths.

June 16, 2020

Oregon's death toll was 182, after two new deaths. Oregon Health Authority reported 278 new confirmed and presumptive cases, bringing the state total to 6,098.

The new cases were in the following counties: Clackamas (21), Crook (1), Hood River (1), Jackson (1), Jefferson (1), Josephine (1), Klamath (8), Lane (1), Lincoln (17), Marion (22), Morrow (2), Multnomah (42), Umatilla (1), Union (119), Wasco (1), Washington (37), Yamhill (2).

Oregon's 181st death was an 89-year-old man in Clackamas County, who tested positive June 13 and died June 15, at his residence. He had underlying medical conditions.

Oregon's 182nd death was an 85-year-old woman in Marion County, who tested positive June 11 and died June 13, at Salem Hospital. She had underlying medical conditions.

At 10 a.m. Central European Summer Time, the World Health Organization reported 2,079,592 cases in the United States, with 115,484 deaths. Worldwide there were 7,941,791 cases, with 434,796 deaths.

June 15, 2020

Klamath County announced nine new cases, bringing the count to 61. Four deaths brought Oregon's toll to 180. Oregon Health Authority reported 184 new confirmed and presumptive cases, bringing the state total to 5,820. The new cases were in the following counties: Clackamas (6), Hood River (1), Jackson (1), Jefferson (1), Klamath (2), Lake (1), Malheur (2), Marion (4), Multnomah (37), Polk (3), Umatilla (9), Union (99), Wasco (2), Washington (15), Yamhill (1).

OHA was coordinating with Union County public health authorities to respond to an outbreak of COVID-19. The outbreak explained the high number of cases in Union County.

Oregon's 177th death was a 78-year-old woman in Clackamas County, who tested positive June 6 and died June 12 at her residence. She had underlying medical conditions.

Oregon's 178th death was an 85-year-old man in Clackamas County, who tested positive June 5 and died June 14 in his residence. He had underlying medical conditions.

Oregon's 179th death was a 65-year-old woman in Clackamas County, who tested positive June 5 and died June 12 at her residence. She had underlying medical conditions.

Oregon's 180th death was a 75-year-old woman in Clackamas County, who tested positive June 4 and died June 11 at her residence. She had underlying medical conditions.

At 10 a.m. Central European Summer Time, the World Health Organization reported 7,823,289 cases worldwide with 431,541 deaths. The United States had 2,057,838 cases and 115,112 deaths.

June 14, 2020

Oregon's death toll was 176, after two new deaths. Oregon Health Authority reported 101 new confirmed and presumptive cases, bringing the state total to 5,636.

The new cases were in the following counties: Clackamas (10), Columbia (1), Klamath (3), Lane (1), Lincoln (8), Linn (1), Malheur (2), Marion (20), Morrow (1), Multnomah (32), Umatilla (1), Union (8), Washington (13).

Oregon's 175th was a 95-year-old woman in Multnomah County, who tested positive May 13 and died June 8, at her residence. She had underlying medical conditions.

Oregon's 176th death was a 70-year-old woman in Washington County, who tested positive May 4 and died June 8, at Portland Providence Medical Center. She did not have underlying medical conditions.

At 10 a.m. Central European Summer Time the World Health Organization reported there were 7,690,708 cases worldwide with 427,630 deaths. The United States had 2,032,524 cases and 114,466 deaths.

June 13, 2020

Oregon's death toll was 174, following another death. Oregon Health Authority reported 158 new confirmed and presumptive cases, bringing the state total to 5,535.

The new cases were in the following counties: Clackamas (17), Columbia (1), Hood River (10), Jackson (3), Jefferson (2), Lane (3), Lincoln (14), Linn (1), Malheur (1), Marion (21), Morrow (1), Multnomah (47), Polk (7), Umatilla (13), Union (2), Wasco (1), Washington (14).

Oregon's 174th COVID-19 death is an 87-year-old man in Umatilla County, who tested positive on May 30 and died on June 11, at St. Anthony Hospital in Pendleton. He had underlying medical conditions.

At 10 a.m. Central European Summer Time the World Health Organization reported 7,553,182 cases and 423,349 deaths worldwide. The United States had 2,010,391 cases and 113,757 deaths.

June 12, 2020

Klamath County announced two new cases, bringing the count to 48. Oregon's death toll was 173, following two new deaths. Oregon Health Authority reported 142 new confirmed and presumptive cases, bringing the state total to 5,377. The cases were in the following counties: Clackamas (9), Columbia (3), Deschutes (2), Hood River (3), Jackson (2), Klamath (2), Lincoln (14), Marion (29), Multnomah (36), Polk (9), Umatilla (5), Union (4), Wasco (3), Washington (21).

Oregon's 172nd death was a 96-year-old man in Washington County, who tested positive May 10 and died June 11 at his residence. He did not have underlying medical conditions.

Oregon's 173rd death was a 68-year-old man in Multnomah County, who tested positive June 1 and died June 10 at Adventist Hospital. He had underlying medical conditions.

More information was available for Oregon's 164th death. He was a 71-year-old man in Malheur County, who tested positive June 1 and died May 31 at the Saint Alphonsus Medical Center in Boise. He had underlying medical conditions.

Notes: Two cases previously reported in Jefferson County were determined not to be cases; the county case count has been adjusted to reflect this.

At 10 a.m. Central European Summer Time the World Health Organization reported 7,410,510 cases and 418,294 deaths worldwide. The United States had 1,988,646 cases and 112,810 deaths.

June 11, 2020

Two more deaths brought Oregon's toll to 171. Oregon Health Authority reported 178 new confirmed and presumptive cases, bringing the state total to 5,237. The cases were in the following counties: Clackamas (47), Clatsop (1), Crook (2), Deschutes (1), Hood River (1), Jefferson (3), Lake (2), Lane (3), Lincoln (9), Marion (34), Multnomah (43), Polk (4), Umatilla (4), Union (1), Wallowa (1), Wasco (1), Washington (15), Yamhill (6).

Oregon's 170th death was an 84-year-old woman in Clackamas County, who tested positive June 6 and died June 9. She had underlying medical conditions.

Oregon's 171st death was a 66-year-old man in Yamhill County, who tested positive June 3 and died June 10, at Willamette Valley Medical Center. He had underlying medical conditions.

The day's case count marked the highest daily count since the onset of the pandemic in Oregon. The reasons for the higher numbers were tied to several factors including widespread availability of testing, increased contact tracing, and active monitoring of close contacts of cases. Workplace outbreaks were another source of the high number.

Higher case counts served as a reminder that Oregonians needed to continue to maintain physical distancing, wear face coverings where physical distancing could not be maintained and follow good hand hygiene.

Note: One case previously reported in Jackson County was determined not an Oregon resident; the county case count has been appropriately adjusted.

At 10 a.m. Central European Summer Time the World Health Organization reported 7,273,958 cases and 413,372 deaths worldwide. The United States had 1,968,331 cases and 111,978 deaths.

June 10, 2020

Oregon Health Authority reported 72 new confirmed and presumptive cases, bringing the state total to 5,060. The cases were in the following counties: Clackamas (6), Hood River (2), Jackson (6), Jefferson (6), Lane (1), Lincoln (4), Marion (5), Multnomah (32), Umatilla (4), Washington (6).

At 10 a.m. Central European Summer Time the World Health Organization reported 7,145,539 cases and 408,025 deaths worldwide. The United States had 1,951,096 cases and 110,770 deaths.

June 9, 2020

Five deaths brought Oregon's toll to 169. Oregon Health Authority reported 70 new confirmed and presumptive cases, bringing the state total to 4,988. The cases were in the following counties: Benton (1), Clackamas (16), Columbia (1), Hood River (6), Lincoln (2), Marion (8), Multnomah (27), Polk (1), Union (1), Washington (7).

Oregon's 165th death was a 78-year-old man in Multnomah County, who tested positive May 6 and died May 27 at his residence. He had underlying medical conditions.

Oregon's 166th death was a 96-year-old man in Marion County, who tested positive May 27 and died June 7 at Providence St. Vincent Medical Center. He had underlying medical conditions.

Oregon's 167th death was a 70-year-old man in Marion County, who tested positive June 5 and died June 8 at Salem Hospital. He had underlying medical conditions.

Oregon's 168th death was a 60-year-old man in Marion County, who tested positive May 21 and died June 4 at Kaiser Westside Hospital. He had underlying medical conditions.

Oregon's 169th death was a 96-year-old man in Clackamas County, who became symptomatic May 31, after close contact with a confirmed case, and died June 3 at his residence. He had underlying medical conditions.

Notes: One case previously reported in Deschutes County was reported in duplicate; the county case count has been adjusted to reflect this. One case previously reported in Linn County was determined not to be a case; the county case count has been adjusted to reflect this. One case previously reported in Malheur County was determined not to be an Oregon resident; the county case count has been adjusted to reflect this. One case previously reported in Wasco County was determined not to be a case; the county case count has been adjusted to reflect this.

At 10 a.m. Central European Summer Time the World Health Organization reported 7,039,918 cases and 404,396 deaths worldwide. In the United States there were 1,933,560 cases and 110,220 deaths.

June 8, 2020

One new case brought Klamath County's total to 46. Oregon Health Authority reported 114 new confirmed and presumptive cases, bringing the state total to 4,922. The cases were in the following counties: Clackamas (13), Hood River (3), Jefferson (1), Klamath (1), Lane (1), Lincoln (61), Marion (8), Multnomah (16), Umatilla (8), Washington (2).

The high number in Lincoln County was related to an outbreak at Pacific Seafood. An outbreak of seven cases was reported at Chaucer Foods in Washington County. The outbreak investigation started on May

31, but the initial case count was below the threshold for public disclosure. OHA publicly reported outbreaks of more than five cases in workplaces with more than 30 employees.

State and county public health officials were working to address the outbreak and protect the health of workers.

Note: During routine data reconciliation, a Deschutes County case reported Saturday was determined to not be a case. The state total was revised to reflect this change.

At 10 a.m. Central European Time the World Health Organization reported 6,931,000 cases and 400,857 deaths worldwide. The United States had 1,915,712 cases and 109,746 deaths.

June 7, 2020

Oregon's death toll reached 164, after another death. Oregon Health Authority reported 146 new confirmed and presumptive cases, bringing the state total to 4,808.

The cases were in the following counties: Clackamas (18), Deschutes (2), Hood River (12), Lincoln (61), Linn (1), Marion (11), Multnomah (22), Umatilla (5), Wasco (2), Washington (8), Yamhill (4).

Oregon's 164th death was a 71-year-old man in Malheur County, who tested positive June 1.

The day's case count marked the highest daily count since the onset of the pandemic in Oregon. The high number was tied to several factors, including more widespread testing, increased contact tracing and active monitoring of close contacts of cases. Workplace outbreaks were another source of the high number.

An outbreak of 65 cases was reported at Pacific Seafood in Lincoln County. The investigation into the outbreak started June 2, but the initial case count was below the threshold for public disclosure. OHA publicly reported COVID-19 outbreaks of more than five cases in workplaces with more than 30 employees.

State and county public health officials were working with the business to address the outbreak and protect the health of workers. The risk to the general public was considered low. People who have symptoms of COVID-19 or concerns about their risk of exposure were encouraged to contact their health care provider.

The 12 new cases in Hood River were linked to outbreaks at seasonal agricultural facilities, while the 22 new cases in Multnomah County appear to be from sporadic sources.

Although the daily number was high, the overall rate of infection in Oregon remained among the lowest in the United States.

At 10 a.m. Central European Time the World Health Organization reported 6,799,713 cases and 397,388 deaths worldwide. The United States had 1,886,794 cases and 109,038 deaths.

June 6, 2020

Two deaths brought Oregon's total to 163. Oregon Health Authority reported 93 new confirmed and presumptive cases, bringing the state total to 4,662. The cases were in the following counties: Clackamas (7), Hood River (7), Jackson (2), Jefferson (2), Lincoln (6), Malheur (1), Marion (11), Morrow (1), Multnomah (28), Polk (3), Umatilla (6), Wallowa (1), Wasco (1), Washington (15), Yamhill (2).

Oregon's 162nd death was a 70-year-old woman in Multnomah County, who tested positive April 8 and died May 9 at her residence. She had underlying medical conditions.

Oregon's 163rd death was a 50-year-old man in Multnomah County, who tested positive April 23 and died May 29 at his residence. He had underlying medical conditions.

Oregon's weekly testing summary for the week ending June 5 showed 20,539 people were tested, above the minimum weekly goal of 15,000 outlined in the COVID-19 Strategic Testing plan for Oregon.

At week's end, the cumulative positive testing rate was 3.1 percent of tests performed. This is lower than the national average of 11 percent. The decreasing rate of positive test results reflected the success of Oregonians in following the Governor's stay-at-home order, along with increasing testing statewide.

Notes: One case previously reported in Deschutes County was determined not to be a case; the county case count was adjusted to reflect this.

At 10 a.m. Central European Time the World Health Organization reported 6,663,304 cases and 392,802 deaths worldwide. The United States had 1,857,872 cases and 107,911 deaths.

June 5, 2020

A new case raised Klamath County's total to 45. Two deaths brought Oregon's toll to 161. Oregon Health Authority reported 97 new confirmed and presumptive cases, bringing the state total to 4,570.

The cases were in the following counties: Benton (5), Clackamas (6), Deschutes (1), Douglas (1), Hood River (9), Jefferson (9), Klamath (1), Lincoln (4), Linn (3), Malheur (1), Marion (17), Multnomah (12), Umatilla (1), Wasco (3), Washington (20), Yamhill (4).

Oregon's 160th death was a 63-year-old man in Multnomah County, who tested positive April 29 and died June 3, at the Portland VA Medical Center. He had underlying medical conditions.

Oregon's 161st death was a 96-year-old woman in Marion County, who tested positive May 31 and died June 3, at Salem Hospital. She had underlying medical conditions.

Notes: One case previously reported in Crook County was determined not to be a case. The county case count was appropriately adjusted. One case previously reported in Deschutes County was determined not to be a case. The county case count was appropriately adjusted.

The day's case count marked the third highest daily count since the onset of the pandemic in Oregon. It brought the total for the past three days to 238 reported cases.

The higher numbers were tied to several factors including the availability of more widespread testing, increased contact tracing, and active monitoring of close contacts of cases. There was an increase in the number of household cases associated with a confirmed case.

Workplace outbreaks were another source of the higher numbers. Many of them are seasonal facilities and were following public health recommendations by offering testing to their employees.

Although the numbers were higher, the overall rate of infection remained among the lowest in the U.S.

But higher case counts served as a reminder that Oregonians needed to continue to maintain physical distancing, wear face coverings where physical distancing cannot be maintained, avoid large gatherings, and follow good hand hygiene.

At 10 a.m. Central European Summer Time the World Health Organization reported 6,535,354 cases and 387,155 deaths worldwide. The United States had 1,837,803 cases and 106,876 deaths.

June 4, 2020

Oregon Health Authority reported 76 new confirmed and presumptive cases, bringing the state total to 4,474. The cases were in the following counties: Clackamas (9), Coos (1), Crook (1), Deschutes (5), Jackson (1), Jefferson (1), Lane (3), Lincoln (5), Linn (2), Marion (12), Multnomah (30), Umatilla (1), Wasco (1), Washington (3), Yamhill (1).

Notes: One case previously reported in Polk County was determined not to be a case; the county case count was adjusted to reflect this.

An outbreak of five cases was reported at Amazon Aumsville in Marion County. The investigation started on May 21. State and county public health officials were working with the business to address the outbreak and protect the health of workers. The risk to the general public from this outbreak was considered low.

At 10 a.m. Central European Time the World Health Organization reported 6,416,828 cases and 382,867 deaths worldwide. The United States had 1,823,220 cases and 106,051 deaths.

June 3, 2020

Two more deaths brought Oregon's toll to 159. Oregon Health Authority reported 65 new confirmed and presumptive cases, bringing the state total to 4,399. The cases were in the following counties: Benton (1), Clackamas (7), Deschutes (1), Douglas (1), Hood River (6), Jackson (1), Jefferson (1), Lincoln (1), Linn (1), Marion (18), Multnomah (13), Polk (1), Umatilla (2), Wasco (2), Washington (5), Yamhill (4).

Oregon's 158th death was a 68-year-old man in Clackamas County, who tested positive May 21 and died June 2 at Providence Portland Medical Center. He had underlying medical conditions.

Oregon's 159th death was a 60-year-old man in Multnomah County, who tested positive April 17 and died May 30 at Providence Portland Medical Center. He had underlying medical conditions.

Notes: Due to data reconciliation, one case originally reported as hospitalized in the 40–49 age group was determined not to have been hospitalized. One case previously reported in Josephine County was determined not to be a case; the county case count was adjusted to reflect this.

At 10 a.m. Central European Time the World Health Organization reported 6,287,771 cases and 379,941 deaths worldwide. The United States had 1,798,330 cases and 105,008 deaths

June 2, 2020

Three deaths brought Oregon's toll to 157. Oregon Health Authority reported 33 new confirmed and presumptive cases, bringing the state total to 4,335. The cases were in the following counties: Benton (1), Hood River (4), Lincoln (2), Linn (1), Marion (8), Multnomah (10), Umatilla (1), Wasco (2), Washington (4).

Oregon's 155th death was a 36-year-old woman in Multnomah County, who tested positive May 31 and died the same day at Adventist Hospital. She had underlying medical conditions.

Oregon's 156th death was a 66-year-old woman in Multnomah County, who tested positive April 1 and died May 22 at her residence. She had underlying medical conditions.

Oregon's 157th death was an 81-year-old woman in Washington County, who tested positive April 6 and died May 26 at her residence. She had underlying medical conditions.

An outbreak of 13 cases was reported at Bob's Red Mill in Clackamas County. State and county public health officials were working to investigate the outbreak and protect the health of workers. The outbreak investigation started on May 27. The risk to the general public from this outbreak was low.

At 10 a.m. Central European Summer Time the World Health Organization reported 6,194,533 cases and 376,320 deaths worldwide. The United States had 1,783,638 cases and 104,247 deaths.

June 1, 2020

Another death brought Oregon's toll to 154. Oregon Health Authority reported 59 new confirmed and presumptive cases, bringing the state total to 4,302. The cases were in the following counties: Clackamas (5), Deschutes (2), Jackson (1), Jefferson (11), Josephine (1), Lane (4), Lincoln (3), Linn (2), Marion (13), Morrow (1), Multnomah (6), Polk (2), Umatilla (4), Washington (4).

Oregon's 154th death was a 59-year-old man in Marion County, who tested positive May 29 and died the same day at Salem Hospital. He had underlying medical conditions.

At 10 a.m. Central European Summer Time the World Health Organization reported 6,057,853 cases and 371,166 deaths worldwide. The United States had 1,734,040 cases and 102,640 deaths.
